

REZA IRFAN WIJAYA

S1 INFORMATICS ENGINEERING STUDENT

Cilacap | +62 838 4447 7447 | rezairfanwijaya23@gmail.com

SUMMARY

Hello, I am a 7th semester informatics engineering student who has an interest in website development. For now I focus on learning fullstack with Reactjs technology as the frontend and Golang as the backend.

EXPERIENCE

SOFTWARE ENGINEER INTERN AT MEKARI (Jul 2022 – Oct 2022)

Developing Mekari products, namely Talenta using the Yii2 framework and Golang.

What did I learn?

- Perform an oncall in 1 sprint
- Created 1 endpoint using Golang language and MySQL DBMSlearn REST API
- Create 2 unit tests on Golang
- Create 1 callback using PHP language on Yii2 framework
- Collaborate with the QA team for feature testing
- Join the scrum team
- Participate and contribute for 4 sprint
- Collaborate with other QA teams for integration testing

BACKEND DEVELOPER GOLANG AT RUANG GURU (Feb 2022 – Jul 2022)

Independent study from the Merdeka Campus in Ruang Guru as a golang backend developer.

What did I learn?

- learn concurrency
- learn authentication
- learn authorization
- learn GIT
- learn http server using gin
- learn unit test
- learn design patterns
- learn database SQLite

And as a final project I made an online exam website. Available at [Final-Project](#).

PROJECT

ONLINE EXAM WEBISTE USING GOLANG AND REACT JS

This project as a final project is carried out in groups from independent study activities in the Ruang Guru. Available at [Online-Exam](#).

AUTH JWT IN GOLANG AND REACT JS

Made frontend and backend integration using restfull api on Reactjs and golang by implementing JWT(Json Web Token) authentication. Available at [Auth-JWT](#).

RESTFULL API GIN

Create a simple restfull api using gin and gorm in the golang programming language. Available at [Restfull-API-Gin](#).

REST API LUMEN

Creating a simple fire rest using Laravel Lumen. Available at [Rest-api-lumen](#).

URL SHORTENER

Create a simple website to shorten url using public API, Reactjs and tailwind. Available at [URL-Shortener](#).

EDUCATION

- INSTITUT TEKNOLOGI TELKOM PURWOKERTO (2019 - now)
- SMA NEGERI 1 DAYEUEHLUHUR (2017 - 2019)

CERTIFICATIONS

- Golang Web Development Certification from Build With Angga
- Tailwind Certification from Build With Angga
- REST-API with LUMEN from Build With Angga
- Database Certification from Codepolitan
- PHP Certification from Progate
- MySQL Certification from Progate
